

Dear <<First Name>>,

Welcome to the latest TB Modelling and Analysis Consortium (<u>TB MAC</u>) newsletter, with information for TB modellers, epidemiologists, and decision-makers. This newsletter contains information on upcoming training courses.

Durham University is hosting two free one-day online workshops on the calibration of deterministic and stochastic infectious disease models using history matching with emulation and the R package hmer. The workshops will be an online event and will take place on June 8-9, 2023.

For more information and to sign up for the deterministic workshop please go here.

For more information and to sign up for the stochastic workshop please go here.

For more information about the hmer package, please visit this site.

As always, please email us with relevant news for the community and let us know if you have any recently published TB modelling papers that you would like us to highlight in our future newsletters, <u>email</u> us with details.

For more information on TB MAC, or to get involved, please contact any of the <u>TB</u> <u>MAC Committee</u>, visit <u>www.tb-mac.org</u> or email us directly at <u>tb-mac@lshtm.ac.uk</u>.

Best wishes, Richard, Finn, Christina and the TB MAC Committee <u>www.tb-mac.org</u> <u>tb-mac@lshtm.ac.uk</u>
